

Academy for Sports Dentistry

Global Symposium

June 22-24, 2023 | Nashville, TN

ASD 2023 in Tennessee,

The Team behind the Team

Team/Sports Dentist Course

The Team/Sports Dentist course is primarily designed to meet the educational needs of clinical dentists from all fields of dentistry who care for and participate in sports teams as part of their practice. With the completion of the ASD Team/Sports Dentist Course the clinician will have been presented with the information needed to perform his or her duties as a team dentist.

New This year! We will be adding 10 hours of education prior to the event. As a part of the Team/Sports Dentist Course you will be required to complete 10 hours of online education prior to the in person portion. Webinars will be held for 2 hours every other week starting in February. If you are unable to make a webinar, you will be able to watch a recording and take a quiz upon completion. More information will be available soon.

New in 2023 the ASD Team/Sports Dentist program will have six (6) mandatory webinar sessions as the didactic course which must be completed prior to the in-person work at the symposium. There will be a variety of speakers on specific topics. Sessions will be on March 27, April 11, April 24, May 8, May 22, and June 5. Upon registering, attendees will receive information regarding the webinars and the in-person session at the symposium. For more information, click [here](#). (This is the pdf of the course.)

No pre-requisites necessary to complete coursework for the Symposium. Suitable for first time attendees and an ideal review for those who have previously completed the Team Dentist Course.
